Career Objective

Motivated and detail-oriented **Frontend Developer (Fresher)** seeking an entry-level position to utilize my skills in **HTML, CSS, JavaScript, React, Next.js, and Tailwind CSS** to build responsive, user-friendly, and modern web applications while contributing to the growth of the organization.

Technical Skills

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6), React.js, Next.js, Tailwind CSS
- **Basic Backend / APIs:** Node.js, Express.js, Firebase (for project integration)
- **Tools & Deployment:** Git & GitHub, VS Code, Chrome DevTools, Firebase Hosting
- **Soft Skills:** Communication, Time Management, Adaptability

Projects

- **1. ScholarStream Scholarship**   **Live** || **Client** ||**Server**
- Developed ScholarStream, a scholarship management platform using Node.js, Express, and MongoDB, enabling students to search and apply for scholarships efficiently.
- **Features:**
- ● **Scholarship Search & Filter:** Students can easily find scholarships based on criteria like eligibility, category, and deadline.
- ● **Secure User Authentication:** Users can register, log in, and manage their profiles securely using JWT-based authentication.
- ● **Application Management:** Students can apply for scholarships and track their application status through the platform.
- **Tech Stack:** Node.js, Express.js,MongoDB,JWT,React.js,GitHub
- **2. Event Management System**   **Live** || **Client** ||**Server**
- Built an Event Management System to streamline event creation, attendee registration, and real-time tracking using Node.js, Express, and MongoDB
- **Features:**
- ● **Event CRUD:** Create, update, and delete events with details like date, time, and venue.
- ● **User Registration:** Attendees can register for events and manage their profiles securely.
- ● **Event Tracking & Dashboard:** Admin can track registrations, view attendee lists, and manage event status.
- **Tech Stack:** Node.js, Express.js,React.js,MongoDB,GitHub
- **3. Habit Tracker**   **Live** || **Client** ||**Server**
- Developed a Habit Tracker app to help users monitor and manage daily habits using Node.js, Express.
- **Key Features:**
- ● **Habit CRUD:** Users can create, update, and delete habits with frequency and reminders.
- ● **User Authentication:** Secure registration and login using JWT for personal habit tracking.
- ● **Progress Visualization:** Track daily, weekly, and monthly progress with simple dashboard
- **Tech Stack** : Node.js,Express.js ,MongoDB ,GitHub

Education

Bachelor of Science (Honors) in Economics — National University *(2023 - Present)*
